SACCOPIESES FOR HENRY CLAY.—The Pittsburg Journal, of Thursday, says: On Wednesday we noted the arrival in this city, en route to Lexington, Ky., of the beautiful marble sarcophagus intended for the remains of Henry Clay, manufactured by Mr. Struthers, of Philadelphia, and designed by Mr. Frederick Graeff, of that city. The material used, which is pure white marble, is from a quarry in Montgomery county. On the raised lid, encircled in the laurel wreath, is the name—Henry Clay—in black marble letters; on the end, in front of the base, is the following: "Presented by William Struthers, Mason, Philadelphia." The inscriptions on the side of the base are Clay's speeches. One, "I had rather be right than President"; "Truth is mighty, and Public Justice certain." Again: "I can, with unshaken confidence, appeal to the Divine Arbitrator for the truth of the declaration that I have been influenced by my impure purpose, no personal motive; have sought no personal aggrandizement, but in all my public acts I have had a sole and single eye, and a warred devoted heart, directed and dedicated to what, in my best judgment, I believed to be the true interests of my country." Adams Express took the sarcophagus from Pittsburg to its destination gratin.

THE NEW ORLEANS CUSTOMS.—We are pleased to observe that the Customs authorities at New Orleans have permitted importations destined for ports above, to come forward, and bonds are given in New Orleans without other change in the bonds than the name of the obligee. A registry of the entry is made at New Orleans and forwarded to the port of delivery exactly as herefore, and the entries are paid as usual. The following letter from the New Orleans Collector explains the matter more fully:

CUSTOM-HOUSE, NEW ORLEANS, Jan. 26, 1861.  
COLLECTOR'S OFFICE, Feb. 15, 1861.

Sir: I have to acknowledge the receipt of your of the 13th instant, relative to the action of this office with reference to mere chandlery belonging to and imported for your citizens; and, in reply to inform you that imported merchandise continues to be entered for warehousing at this port, and is permitted to be withdrawn for transportation to St. Louis or other port of delivery as heretofore. The combined entry for warehousing and transportation is also continued.

The only change consequent upon the recession of this State being the necessity for applying for a license to do business at this port. The obligation is on the State of Louisiana; and the bonds are cancelled on production of your certificate or that of other custom officers as hitherto. Goods warehoused in bond are re-warehoused as usual, and forwarded under the transportation code above mentioned.

This is the practice now existing. Its continuance or change will of course depend upon the action of the Provisional Government now established in Montgomery, Ala.

Very truly yours, J. L. EASTON, Collector.

Messrs. Casselay & Son, one of the oldest establishments in the city, and one of the largest importing houses in the Western country, have received the following from their agents at New Orleans: "Louisiana cannot acknowledge the bonds given to the Federal Government, but there is no desire on the part of the State to detain shipments. But for goods in transit the State requires bond and security to be given by citizens of the State that the ships will go forward to their proper destination, and a certificate will be required that this duty has been performed."

THE PILGRIMS.—We find that our nation of this unique organization that paraded Saturday night is misapprehended.

The persons belonging to it are gentlemen of respectability, and their object was only a pleasant burlesque, and very successful it was. They only refreshed a couple of times, and are by no means habitues of coffee-houses, as might have been apprehended from our notice.

CURE FOR HOO CHOLERA.—It is known that large rewards have been offered by societies and organizations of various countries for the discovery of a certain cure for hog cholera. Mr. R. D. Cook, of Rockcastle county, Ky., who has been experimenting in that way, avers that he has made the coveted discovery. His prescription embraces apple brandy, soda, and a small quantity of tar, which he says, he has used with marked success.

FAILEURS IN JANUARY.—The New York Herald gives a list of the failures in the United States for the month of January of the last five years. The condition of affairs at the present time is far worse than it was at any former period—over in 1858, when the effects of the financial revolution of the fall of 1857 first began to be felt—as the following table, taken from the books of Duren, Boyd & Co., will prove:
